

- Tackable and lightweight
- More durable than standard insulation board
- Multipurpose substrate for laminated products
- Easily machinable with standard woodworking tools
- Made from 98% organic materials

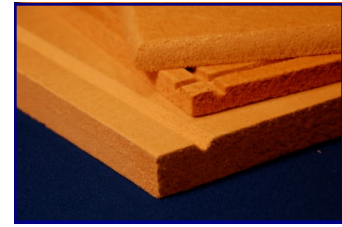

Bulletin Boards

Providing a substantial and tackable foundation, **MultiCore** can be laminated with cork, fabric or simply painted

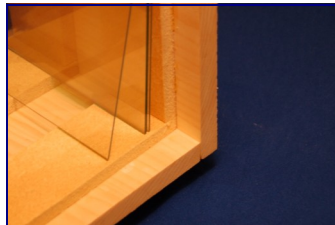

Office Panels

Durable and lightweight, **MultiCore** panels make functional office partitions.

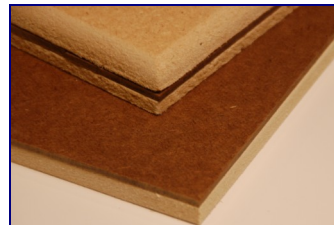

Specialty Routing

MultiCore can be routed into many intricate patterns.

Packaging

MultiCore is perfect for providing cushioned support for fragile items

Furniture Parts

MultiCore provides lightweight bulk, for chair bottoms and backs when sandwiched between hardboard.

MultiCore— Typical Physical Properties

<u>Thickness</u>	<u>Weight</u>	<u>Density</u>	<u>Transverse Strength</u>	<u>Modules of Rupture</u>	<u>Tensile Strength</u>	<u>Water Absorption % by volume</u>
Inches	Lb./msf	Lb./cf	lbf	psi	psi	
3/8"	493	15.4	6.9	306	205	7.4
7/16"	616	16.0	10.1	313	202	6.9
1/2"	686	16.4	12.5	315	195	6.6
